## **EZ38 QUICK HITCH INSTRUCTIONS**

- Turn on quick hitch switch located with/next to other switches near left hand controls
- Raise blade to full height
- Have bucket a safe distance off the ground (300mm)
- Using left heel push and hold down foot switch on left side rear of the cabin. May take 5 seconds to actuate and close or open the quick hitch ram
- Pull up on Blade Lever
- Using joystick curl bucket back to unhitch the bucket
- To connect a new bucket, repeat the process in reverse
- Then test that the bucket is locked in correctly before digging
