

# Plant Hazard Assessment Form

<b>Assessment Number:</b> BC06	<b>Assessment Date:</b> 21/2/2023
<b>Plant Type:</b> Nail Gun <b>Plant Make:</b> Trax <b>Plant Model:</b>  <b>Asset/Fleet/Rego No:</b> NAILGUN <b>Plant Serial No.</b>	<b>Assessment Facilitated by:</b> Leigh Evans (Admin/Accounts Manager)  <b>Assessment Participants:</b> Chris Feldbauer (Director)
<b>Plant Owner Name:</b> Northern Hire Group	<b>Follow up Assessment</b> (See below for Revision No.)
<b>Site/Job Specific Assessment Required?</b> YES  When completing the checklist, consider the hazards that may affect: <ul style="list-style-type: none"><li>• plant operators</li><li>• anyone working, or in the vicinity of, the plant</li><li>• others who could be affected, such as visitors, pedestrians, contractors, etc.</li></ul>	

Is the plant designed to perform the task? Yes ~~No~~

Has the plant been modified from the original condition? ~~Yes~~ No

Is the plant in good working condition and free of weeds & mud? Yes ~~No~~

All identified action items closed out/addressed (plant checks)? Yes ~~No~~

Is the plant safe to operate? (On completion of PHA and action closure) Yes ~~No~~

**Date:** 16/2/23

**Signature:**

A handwritten signature in black ink, appearing to be 'M' or 'J' with a flourish.

# Plant Hazard Assessment Form

This document has been developed as a guide to identify hazards on plant only.

This Risk Assessment has been conducted to the guidelines as detailed in the Worksafe booklet "Plant Hazard Checklist"

**Workplace hazards have not been identified.**

Job safety analysis (J.S.A) - Safe Work Method Statement (SWMS) is required to identify workplace hazards.

Operators must take into account Job Safety Analysis when operating mobile plant.

This assessment is conducted under a static condition as per Occupational Health & Safety Regulations Victoria 2017. A site specific assessment should be conducted at each change of location. Refer to Plant Regulations/National Standards for Plant (NOHSC).

## Action and Approval Scheme

These suggested timings and tolerance levels in the Action Table will be overridden by specific policies of the company that either dictate shorter timeframes for corrective action or zero tolerance. For example, the company has a zero tolerance policy for Safety and Environmental risks.

The decision to tolerate a risk or capture a opportunity should be based on a consideration of:

Whether the risk / opportunity is being controlled to a level that is reasonably achievable;

Whether it would be cost-effective to further control risk or capture the opportunity;

Whether the user wishes to tolerate risks / opportunities of that type

	A	B	C	D	E
1	H	H	H	M	M
2	H	H	M	M	L
3	H	M	M	L	L
4	M	M	L	L	L
5	M	L	L	L	L

**Hazard Risk Assessment**

H	High Risk	INTOLERABLE (Significant & Urgent Action(s) required - Immediate Action)
M	Medium Risk	(Reduce risk to ALARP - As Low As Reasonably Practicable)
L	Low Risk	-Tolerable (monitor and manage risk)

**Likelihood of Occurrence**

1. Expected to occur (once per week)
2. Common (once per month)
3. Rarely (once in < 20 years)
5. Highly unlikely (once in > 20 years)

**Severity of Result**

- A. Fatality
- B. Permanent Disability
- C. Lost Time Injury (LTI)
- D. Medical Treatment/Damage
- E. First Aid Injury

### Disclaimer:

This Plant Hazard & Risk Assessment does not eliminate the Owner/Operator responsibility to maintain the Mobile Plant as per OH & S Regulations Victoria 2017/National Standards for Plant (NOHSC).

This assessment provides information that is based on an inspection that was made on the date noted on the assessment cover sheet. If any addition, alteration or modification has been made to this mobile item plant subsequent to that date, it may not confirm to a satisfactory level of acceptance.

All hazards identified in this document must be rectified within 21 days of date listed on this form.

If faults are not rectified in 21 days, this document becomes null and void.

I acknowledge receipt of the complete Assessment for the Plant item detailed on the cover sheet.

**Supervisor/Operator Name:** .....

**Supervisor/Operator Signature:**.....

**Date:**        /        /

# Plant Hazard Assessment Form

*This Hazard Identification and Risk Assessment has been prepared based on several key assumptions:*

- 1. That all examples of the plant currently in service are as per their original specification.*
- 2. That all examples of the plant have not been modified in any way without the prior written consent of the manufacturer or owner.*
- 3. That all examples of the plant are operated and maintained in accordance with the Manufacturer's Instructions and with all applicable statutory requirements.*

*Northern Hire Group have made every attempt to identify all reasonable foreseeable operating circumstances in preparing this assessment, however no guarantee as to the completeness of this Assessment is provided or implied.*

*You should always check any applicable legislation and make your own judgement about what action you may need to take to ensure you have complied with the law.*

*It is the responsibility of the Employer, Contractor, Operator(s) to assess and identify any site or operation specific hazard associated with the use of this equipment specifically applicable to the task to be carried out and to where the equipment is to be used or located. They must assess the risk potential for each of the identified hazards and ensure that all reasonably practicable steps are undertaken to ensure those risks are effectively controlled.*

*All operators must be trained and competent in the use of this plant and hold appropriate qualifications as required by applicable regulatory requirements.*

*Operators of the plant to which this Risk Assessment refers must read and understand the instructions for Use and Warnings contained in the Operator Manual, or supplied with this Assessment, prior to use.*

*All daily Pre-Start checks, Routine and Periodic Inspections, Maintenance and Repairs to this plant must be carried out in accordance with the requirements of applicable Australian Standards.*

## NOTES:
