# 7 General Maintenance

## 7.1 Periodic Maintenance Schedule

The table below lists basic machine maintenance. Tasks designated with check marks may be performed by the operator. Tasks designated with square bullet points require special training and equipment.

| Roller | Daily before starting | Every 100 hours | Every 500 hours or 1 year | Every 1000 hours or 2 years |
|---|---|---|---|---|
| Check for loose or missing fasteners. Replace as needed. | ✓ | | | |
| Check hydraulic oil. Fill to correct level. | ✓ | | | |
| Clean control box / transmitter. | ✓ | | | |
| Verify that receiving eyes blink rapidly when approached by the operator. | ✓ | | | |
| Grease articulated joint. | | ✓ | | |
| Grease steering cylinder. | | ✓ | | |
| Change hydraulic system return line filter.[1] | | | ■ | |
| Change hydraulic fluid. | | | | ■ |

[1] *Change after the first 100 hours of operation.*
