

Assessment Number: 1		1	Assessment Date: 3/9/20
Plant Type: Towable 200L Weed Sprayer Plant Make: Plant Model:			Assessment Facilitated by: Leigh Evans (Admin/Accounts Manager)
Asset/Fleet/Rego No: WEEDSPRY Plant Serial No.		/	Assessment Participants: Lachlan Horton (Yard Manager)
Plant Owner Name: Northern Hire Group		I	Initial Assessment         Follow up Assessment (See below)
Follow up based on change to:			
Use of plant 🗌 System of work 🗌 Plant	Environme	nt 🗌	New or additional information  Plant through modification
Is the plant designed to perform the task?	Yes X	No 🗌	]
Has the plant been modified from the original condition?	Yes 🗌 🛛	No X	
Is the plant in good working condition and free of weeds & mud?	Yes X	No 🗌	]
All identified action items closed out/addressed (plant checks)?	Yes X	No 🗌	
Is the plant safe to operate? (On completion of PHA and action closure)	Yes X	No 🗌	]
			Date: Signature:

Issue Date: 3/9/2020

#### Risk / Opportunity Rating Table (see Risk Management Consultation

<u>Process Appendix</u> for a full description of Risk Consequence, Opportunity Consequence and Likelihood Ratings)

#### **Action and Approval Scheme**

These suggested timings and tolerance levels in the Action Table will be overridden by specific policies of the company that either dictate shorter timeframes for corrective action or zero tolerance. For example, the company has a zero tolerance policy for Safety and Environmental risks.

The decision to tolerate a risk or capture a opportunity should be based on a consideration of:

Whether the risk / opportunity is being controlled to a level that is reasonably achievable;

Whether it would be cost-effective to further control risk or capture the opportunity;

Whether user wishes to tolerate risks / opportunities of that type

#### **Action Table**

Residual risk / opp level	Suggested action	Timing of status report and management plans	Authority for continued toleration or improvement of residual rating.
A	Take action to eliminate or implement additional controls to reduce it to acceptable level (ALARP/SFAIRP). "Onsite activities" – Intolerable and activity must not commence	Report as soon as practicable. Normally within hours.	Senior Executive Manager Plus Project Manager / Project Leadership Team
В	Implement additional controls reduce it to ALARP/SFAIRP. "Onsite activities" – must not commence without Corporate Management review	Manage and re-evaluate risk / opportunity to allow reporting days Manage and re-evaluate risk / opportunity to allow reporting every two weeks	General Manager and / or Project Manager / Project Leadership Team
с	Implement additional controls reduce it to ALARP/SFAIRP. "Onsite activities" – must not commence without Site Management review	Manage and re-evaluate risk / opportunity to allow reporting monthly	"Specialist" Manager, eg Construction or Design Manager
D	Will still require attention within existing operations to reduce to ALARP/SFAIRP. "Onsite Activities" – Site Management must determine appropriate level of management and supervision prior to commencement of activity	Manage and re-evaluate risk / opportunity to allow reporting every quarter	Team Leader
E	Lower priority. May be tolerable.	Monitor, manage and carryout activity in accordance with identified controls	Supervisor

Revision No: 1 Issue Date: 3/9/2020
